

HAVE QUESTIONS ABOUT YOUR CHILD'S DEVELOPMENT?

The **FREE** Child Find Screening Clinic is for you!

WHAT IS CHILD FIND?

Natchitoches Parish Schools offer free screening clinics as part of Child Find initiatives for children ages 2.5 - 4 years old. This screening is an opportunity to identify, locate, and evaluate children who may have a disability and to address potential concerns.

HOW DOES IT WORK?

Diagnostic screenings are administered by members of the pupil appraisal team which may consist of an educational diagnostician, speech-language pathologist, occupational therapist, school psychologist, social worker, and nurse as needed.

The screenings consist of tools to address cognitive, speech/language, social/emotional, fine/gross motor and vision/hearing.
